

## 8 Tips to Protect Your Identity

Identity theft continues to be one of the fastest growing crimes in the United States. According to Norton's 2021 Cyber Safety Insights Report, 1 in 5 Americans (20%) have experienced identity theft and more than 13.5 million were victimized in 2020. Rhinebeck Bank recommends following these tips to keep your information – and your money – safe.

**1. Don't share your secrets.**

Don't provide your Social Security number or account information to anyone who contacts you online or over the phone. Protect your PINs and passwords and do not share them with anyone. Use a combination of letters and numbers for your passwords and change them periodically. Do not reveal sensitive or personal information on social networking sites.

**2. Shred sensitive papers.**

Shred receipts, banks statements and unused credit card offers before throwing them away.

**3. Keep an eye out for missing mail.**

Fraudsters look for monthly bank or credit card statements or other mail containing your financial information. Consider enrolling in online banking to reduce the likelihood of paper statements being stolen. Also, don't mail bills from your own mailbox with the flag up.

**4. Use online banking to protect yourself.**

Monitor your financial accounts regularly for fraudulent transactions. Sign up for email alerts from Rhinebeck Bank for balances or transfers on accounts.

**5. Monitor your credit report.**

Order a free copy of your credit report every four months from one of the three credit reporting agencies at [annualcreditreport.com](http://annualcreditreport.com).

**6. Protect your computer.**

Make sure the virus protection software on your computer is active and up to date. When conducting business online, make sure your browser's padlock or key icon is active. Also look for an "s" after the "http" to be sure the website is secure.

**7. Protect your mobile device.**

Use the passcode lock on your smartphone and other devices. This will make it more difficult for thieves to access your information if your device is lost or stolen. Before you donate, sell or trade your mobile device, be sure to wipe it using specialized software or using the manufacturer's recommended technique. Some software allows you to wipe your device remotely if it is lost or stolen.

**8. Report any suspected fraud to Rhinebeck Bank immediately.**
